

# BAYER MOBILE LOG PALLETS AND PALLETS

1. Logs and pallets are light and mobile.
  - a. Reduced weight facilitates pallet switching, setup and storage.
  - b. Reduced weight improves accuracy by reducing machine heat and deflection.

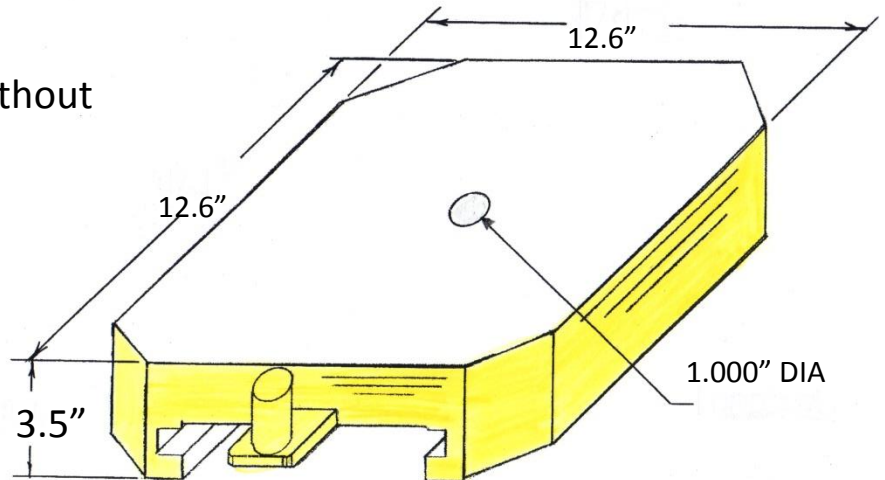

## SQUARE PALLET P/N SPT-12.6

1. The square pallet can be used with either the flat pallet clamp or rotary table.
2. The minimum T- slot circle is 6.4 inch diameter.
3. The T- slot width is .5625 inches.
4. They are machined from 6061-T6 aluminum alloy.

## SQUARE PALLET P/N SP-12.6

Same as above but are supplied without T-slots.

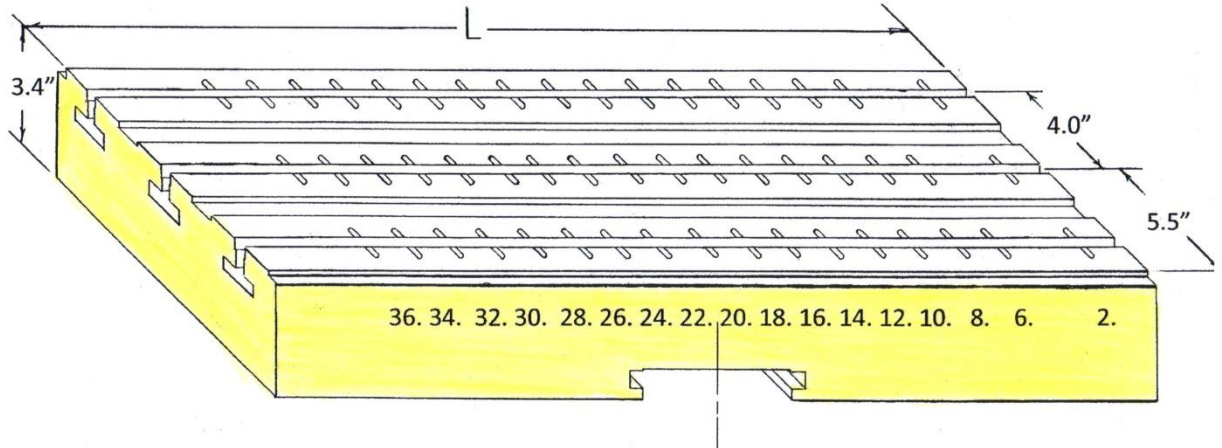

Logs and pallets, except the square pallet, are machined from 7075-T651 aluminum. They are as hard as cold rolled steel.

Bayer fixture patent #8002254
